## **Understanding Streamlight Flashlight Beam Patterns**

Having the right flashlight that meets your lighting needs is important. That's one of the reasons Streamlight developed three series of lights: Tradition, High Lumen (HL) and High Performance High Lumen (HPL). Each series offers a different balance of features and can be used for a variety of applications.

We understand it can sometimes be difficult to determine which lights work best for a variety of applications. When choosing a flashlight, keep the following in mind:

Tradition Series: Meant for general, multi-purpose use, these lights are designed for the broadest range of lighting applications at the best value.

Performance Characteristics	Typical Uses	<b>Examples of Available Products</b>
<ul> <li>Optimal balance of candela and lumens</li> <li>Longest regulated run times</li> <li>The best value</li> </ul>	<ul> <li>Day-to-day industrial use</li> <li>Law enforcement duty light</li> <li>Maintaining vehicles</li> <li>General contracting work</li> </ul>	<ul> <li>PolyStinger<sup>®</sup> LED/DS<sup>®</sup> LED</li> <li>Stinger<sup>®</sup> LED/DS<sup>®</sup> LED</li> <li>Strion<sup>®</sup> LED</li> <li>TLR-1<sup>®</sup>/TLR-1s<sup>®</sup> (weapon-mount light)</li> <li>TLR-2<sup>®</sup>/TLR-2s<sup>®</sup> (weapon-mount light)</li> </ul>

**High Lumen (HL):** Gives you maximum illumination, providing full situational awareness by delivering extraordinary brightness in a wide beam pattern. These lights are ideal for smaller areas where you need a lot of light, but not an exceptionally long reach.

Performance Characteristics	Typical Uses	<b>Examples of Available Products</b>
<ul> <li>High lumen beam</li> <li>Delivers maximum illumination</li> <li>Provides a good level of candela</li> </ul>	<ul> <li>Clearing a dark scene or searching an alley</li> <li>Lighting a campsite</li> <li>Vehicle stops or searches</li> <li>Wherever you want wide scene illumination, while still being small enough to fit in your pocket</li> </ul>	<ul> <li>ProTac HL<sup>®</sup>/ProTac HL<sup>®</sup> USB</li> <li>ProTac HL<sup>®</sup> 3/ProTac HL<sup>®</sup> 4</li> <li>Scorpion<sup>®</sup> HL</li> <li>Stinger LED HL<sup>®</sup>/DS LED HL<sup>®</sup></li> <li>Strion LED HL<sup>®</sup></li> <li>TLR-1 HL<sup>®</sup>/TLR-2 HL<sup>®</sup> (weapon-mount light)</li> </ul>

High Performance High Lumen (HPL): A good choice for down-range applications requiring optimal beam distance, as these flashlights throw light a long distance and feature an enhanced lumen output.

Performance Characteristics	Typical Uses	Examples of Available Products
<ul> <li>High-candela beam</li> <li>Delivers long-range lighting</li> <li>Sheds a bright peripheral beam</li> <li>More light on your target at a distance</li> </ul>	<ul> <li>See all the way to the end of a dark alley or down a wooded path</li> <li>Inspecting utility lines from the ground</li> <li>Search and rescue missions</li> <li>Down-range illumination</li> </ul>	<ul> <li>Stinger<sup>®</sup> HPL<sup>TM</sup>/DS<sup>®</sup> HPL<sup>TM</sup></li> <li>Strion<sup>®</sup> HPL<sup>TM</sup></li> <li>TLR-1<sup>®</sup> HPL<sup>TM</sup> (weapon-mounted light)</li> </ul>
